February 23, 2017

The Hon. Mick Mulvaney Executive Office of the President Office of Management and Budget

RE: Retain the Office of National Drug Control Policy

Dear Mr. Mulvaney:

We are thankful to the Trump Administration for prioritizing the reduction of drug use, drug trafficking, and its consequences. We represent former and current federal, state, and local officials, hundreds of community-based organizations, and tens of thousands of people working in drug prevention, drug treatment, drug treatment courts, mental health, recovery, medicine, law enforcement, and millions of individuals in recovery from alcohol and drug use disorders. Like the Administration, we believe drugs are a serious issue.

In light of the Administration's prioritization, we write in strong support of the Office of National Drug Control Policy (ONDCP), due to the critical and unique role the office serves:

- ONDCP eliminates waste and fraud in the federal government by preventing duplicate programs and strategies among various federal agencies, designed to reduce drug consumption (through prevention, treatment, and recovery support) and its consequences, and to eliminate drug trafficking.
- ONDCP oversees/coordinates federal efforts to combat the opioid overdose epidemic, which has been the fastest growing drug epidemic in U.S. history. It coordinates all federal agencies responsible for reducing drug trafficking and use, and thus ensures agencies adhere to the President's priorities and are not duplicative or wasteful.
- ONDCP brings essential expertise to the table on complex drug issues, expertise that would otherwise be missing or dispersed across multiple agencies.
- ONDCP holds all federal, state, and local agencies accountable for achieving specific goals to reduce drug trafficking, use, and other consequences.
- ONDCP funds and oversees vital programs to reduce drug use and drug trafficking:
 - The critically important Drug Free Communities (DFC) program, which provides funding directly to communities to prevent drug use. DFC-funded coalitions are proven to effectively reduce alcohol, tobacco, marijuana and prescription drug misuse among middle and high school-aged children.
 - The High Intensity Drug Trafficking Area (HIDTA) program, which coordinates federal, state, and local law enforcement to streamline efforts to dismantle drug trafficking organizations and bring drug traffickers to justice.

At a time when drugs now kill more people than firearms or car crashes, it is more important than ever for ONDCP to remain a strong voice in the White House and a visible presence nationally.

Sincerely,

A New PATH
