# **COVID-19 Resources for School Social Workers**

# May 2020

During the COVID-19 public health emergency, school social workers are essential staff and continue to play a vital role in ensuring that students continue to receive much-needed mental health, education and other services despite school disruptions from the pandemic. Below is a list of resources that school social workers may find helpful when providing services to students and their families.

#### **COVID-19 Adjustment**

This site provides a number of resources to help students and their families cope with the pandemic.

#### **Calming Cards and Calming Catcher**

Calming cards are helpful for students who are emotionally dysregulated.

https://resilienteducator.com/classroom-resources/calming-cards-calming-catcher/

#### **Social Media Resources**

This resource helps students navigate and understand social media and may be shared with parents or caregivers for at-home learning opportunities.

#### **Social Emotional Learning**

School social workers can use strategies from this site to continue structured, social and emotional learning for students with autism. This site provides a variety of strategies, printable worksheets, websites and activities. <u>https://www.freewebs.com/kidscandream/page12.htm</u>

# **Sibling Rivalry Solution**

School social workers may interact with parents who have sibling rivalry concerns now that students are confined together at home. They encourage parents to remain vigilant and provide similar levels

of attention, time and interest to all of their children. This link provides training activities to support both the parent and sibling during this time of school closing and **social distancing**.
