Dear Chairmen Blunt and Cole and Ranking Members Murray and DeLauro:

As you finalize your fiscal year (FY) 2018 bill, the undersigned organizations that serve and advocate for older Americans respectfully ask that you maintain funding for the Senior Community Service Employment Program (SCSEP) at no less than $400 million for FY 2018, as recommended in the U.S. Senate bill.

SCSEP is a critical component in our country’s workforce development strategy. The U.S. Department of Labor (DOL) program helps unemployed older adults develop new skills and work experiences through work-based learning assignments in their communities. Despite entering the program with multiple barriers to employment, thousands of older adults from every state found jobs last year through SCSEP and are now contributing to the workforces of the nearly 5,400 private and public sector employers who recently hired SCSEP participants. In addition to exceeding its entered employment rate, SCSEP eclipsed its federal performance goals for employment retention and six-month average earnings.\(^1\)

We were pleased that both the House and Senate appropriations bills maintained this valuable employment program, as recommended in last year’s bipartisan SCSEP reauthorization (P.L. 114-144). However, the significant cut proposed in the House bill would mean about 15,000 fewer older adults would receive SCSEP employment services next year. This proposed cut is especially troubling considering last year’s 8 percent cut and with new federal costs associated with the Workforce Innovation Opportunity Act (WIOA) requirement to contribute toward American Job Center infrastructure expenses. Increased funding would help SCSEP meet new WIOA-related costs and the growing demand among eligible unemployed older adults.\(^2\)

We hope you will continue to support the employment and job training needs of older Americans by funding SCSEP at no less than $400 million in FY 2018. Last year, Congress extended SCSEP through the bipartisan Older Americans Act (P.L. 114-144) and recommended the program be funded at $454,499,494 in FY 2018.

---
