

October 30, 2025

President Trump:

We are writing today with a sense of alarm. Among many other programs and services at risk, funding for the Supplemental Nutrition Assistance Program (SNAP), which provides food purchasing assistance to low-income families in communities across America, is about to be defunded if you do not act before November 1st. SNAP is the largest nutrition assistance program in the nation with an average of 41.7 million participants a month in FY 2024.¹

As a membership association representing over 100,000 social workers across the United States, we are deeply concerned about the impact losing SNAP benefits will have on communities nationwide. At a time when families are struggling to make ends meet and navigating the rising cost of goods across the board, the impact of losing these critical benefits is almost immeasurable for the many families social workers work alongside. There are also broader economic impacts of losing this essential benefit, which will create a cascading ripple effect. With lost purchasing power comes risks to businesses, big and small, and the economy at large.

Food insecurity is a non-partisan issue our country has worked hard to tackle, so that older adults don't have to choose between paying for medication and their next meal, children don't go to school hungry and unable to focus, and families aren't having to portion out meals until their next paycheck. **As social workers, we know food is a basic need - similar to housing and healthcare.** If the federal government stops funding SNAP right before the winter and holiday season, food banks across our country will face unprecedented demand, which they do not have the capacity to meet. Many more people will be hungry in America, and the impacts will be far greater than empty stomachs at night.

What does that look like across the United States?

- According to the USDA, more than 16% of Louisiana residents receive SNAP benefits. This means roughly 800,000 people will lose their benefits starting November 1st.²
- Rhode Island, a state with approximately one million people, would see 140,000 people impacted.
- 1.9 million people in Illinois would lose benefits starting on November 1st, 2025.³

³ <https://ffesp.org/no-snap-payments-november-2025/>

- 3.5 million people in Texas receiving SNAP benefits would lose those benefits, and 1.7 million are children.

As social workers, in accordance with our NASW Code of Ethics and values, we urge you in the strongest possible terms to work together to end the Government Shutdown and continue to fund critical programs that are making it possible for people to meet their most basic needs. We are grateful for the longstanding support many members of Congress have demonstrated for SNAP, and we ask through your leadership that you continue that support and make sure America's families don't go hungry.

The below social workers have signed on in support:
